

## ZENITH LUM Series Ultrafine Vertical Roller Mill features and technical data

ZENITH is one of the biggest manufacturers in aggregate processing machinery for the sand & gravel, quarry, mining, construction and recycling industries. Headquarter of ZENITH is located in Shanghai, China and now we have two manufacturing bases as our strong support. The equipment includes crusher, mobile crusher, conveyor, screening machine, sand washing machine, track mounted mobile crusher, crushing equipment, **mill equipment**, complete aggregate crushing equipment, beneficiation equipment, jaw crusher, cone crusher, impact crusher, complete quarry equipment, and so on. We will provide the right equipment according to the customer's requirements, and help customers to choose the location of the production line, equipment installation, training of workers, as well as on-site help and after-sales service.

### LUM Series Ultrafine Vertical Roller Mill Features

1. It is quite environmentally friendly, LUM is of little dust and noise
2. The final products has little iron and the whiteness and purity are quite high
3. LUM has excellent grinding-efficiency for the special design of roller shell and grinding plate curve
4. LUM use PLC/DCS automatic control system, well save the cost of operators

### LUM Series Ultrafine Vertical Roller Mill Technical Data

Model	LUM1125	LUM1232	LUM1436
Wheel diameter (mm)	1100	1200	1400
Capacity (t/h)	5~12	7~16	8~18
Fineness 400~650Mesh	~D97	~D97	~D97
Material Size (mm)	<10	< 10	<10
Moisture	<3%	<3%	<3%
Main Motor Power (KW)	250	315	355
Roller(set)	3	3	3
Classifier Motor Power	15 KWx5	15 KWx7	15 KWx7
