

ZENITH PE Series Jaw Crusher features and technical data

ZENITH is one of the biggest manufacturers in aggregate processing machinery for the sand & gravel, quarry, mining, construction and recycling industries. Headquarter of ZENITH is located in Shanghai, China and now we have two manufacturing bases as our strong support. The equipment includes crusher, mobile crusher, conveyor, screening machine, sand washing machine, track mounted mobile crusher, crushing equipment, mill equipment, complete aggregate crushing equipment, sand making equipment, **jaw crusher**, cone crusher, impact crusher, complete quarry equipment, and so on. We will provide the right equipment according to the customer's requirements, and help customers to choose the location of the production line, equipment installation, training of workers, as well as on-site help and after-sales service.

PE Series Jaw Crusher Features

1. The application of world-class manufacturing processes and high-tech materials
2. Integrated steel structures are used for the base of bearing
3. The crushing chamber uses "V"-shaped structure, So that the feeding size equal to the nominal one
4. The crushing chamber is deep and without dead zone, increases the capacity and the output
5. Lubrication system is safe and reliable, convenient to replace parts, easy to maintain
6. The outlet employs shim adjustment system, convenient and reliable, and increase the flexibility of the equipment
7. Low noise, less dust

PE Series Jaw Crusher Technical Data

Model	Feed Opening(mm)	Max Feeding(mm)	Discharge Opening(mm)	Capacity (t/h)	REV (r/min)	Power (kw)	Motor Model	Machine Size (mm)
