

ZENITH LSX Series Sand Washing Machine features and technical data

ZENITH is one of the biggest manufacturers in aggregate processing machinery for the sand & gravel, quarry, mining, construction and recycling industries. Headquarter of ZENITH is located in Shanghai, China and now we have two manufacturing bases as our strong support. The equipment includes crusher, mobile crusher, conveyor, **screening machine**, sand washing machine, track mounted mobile crusher, crushing equipment, mill equipment, complete aggregate crushing equipment, jaw crusher, cone crusher, impact crusher, complete quarry equipment, and so on. We will provide the right equipment according to the customer's requirements, and help customers to choose the location of the production line, equipment installation, training of workers, as well as on-site help and after-sales service.

This is ZENITH **LSX Series Sand Washing Machine** features and technical data:

LSX Series Sand Washing Machine Features

1. Simple structure, transmission bearing of impeller depart from water and material
2. The loss of fine sand occupy very small proportion.
3. No quick-wear part.
4. Long service life.
5. Reasonable structure, easy maintenance.
6. High capacity and cleanliness of sand.

LSX Series Sand Washing Machine Technical Data
